PYO SPOT-ON

PYO SPOT is an easy-to-use weekly spot-on therapy that helps manage the skin microflora and restore proper skin barrier function. Containing natural oils and essential fatty acids, it is the first 100% natural spot-on specially formulated to help purify and restore the balance of the skin flora of dogs prone to recurring skin microbiota imbalances. It contains a phyto bio-diffusing agent to ensure carriage to all areas of the body. It can be used long-term to help reduce dependence on symptomatic medications.

Contains:

- **Skin barrier & moisturising ingredients:** hemp seed and tamanu rich in EFA
- **Microflora purifying ingredients:** Innovative purifying complex combining neem extract with a synergy of essential oils composed of palmarosa, savory, sage, lavandin, lemon eucalyptus and ajowan
- **Bio-diffusing agent** to enable a homogeneous distribution of the active ingredients onto the whole-body surface from a single point of application, thanks to the natural sebum on the skin of the animal

Uses:

- PYO SPOT spot On is for use on the skin of animals prone to recurrent skin problems

Available in 3 sizes

- 0-10kg for dogs
- 10-20kg for dogs
- 20-40kg for dogs

Directions for use

- Break the top of the pipette
- Part the coat on the back of the neck
- Apply the spot-on solution directly to the skin
- Do not massage in
- Do not bathe the coat for 48 hours
- Brush the coat after 24 hours
